**REGISTRATION FORMS** — Tax collector-assessor Valter White holds some of the thousands of voter registration forms turned in by Milam residents of voting age. Thousands of the forms came from newspapers. This was the first year registration was required for

all voters 21 or more. Those becoming 21 after the January 31 deadline and those having established the one-year residence requirement prior to the 1968 elections are the only ones who may register late.

## Community Center Plan... Units, Sites Discussed

### 90% COUNTY TAXES PAID

City, County and Cameron School tax offices reported about 90 percent of taxes paid by the January 31 deadline. Taxes paid after February 1 will carry a late penalty. Milam tax payers apparently were anxious to clear their tax records this year with the majority paying after the first notice in October. Valter White, county tax collector, estimated that 74 percent of the taxes were paid during October. Cameron Independent School District tax officer O. G. Chamberlain also noted an unusually large number of October tax payers. He estimated that 93 percent of the school taxes will have been paid by the January 31 postmark deadline, and added that this was about average for the school tax. Taxes are considered delinquent after June 1.

### Chamber Directors Elects '68 Officers 12 Added To Board

Chamber of Commerce directors elected new officers for 1968 and six new directors were elected to the Chamber board.

Eugene Smitherman will succeed John B. Henderson, Jr., as Chamber president. Henry Litzman was named first vice president and Rev. J. E. Lafferty, second vice president.

New directors elected to three year terms are: Lafferty, Hilliard Thomas, Ed Magre, Anton Anderle, Dr. George Bowman and Fredwill Hornung.

Appointed as directors to serve one year terms were: Albert Hajovsky, Frank Luecke, Harry Shanks, Larry Smith, Bernay Dusek, and Bill Watkins.

Officers and directors will be installed at the annual Chamber of Commerce banquet scheduled for March 12.

### No. 1 E. V. Brod Drills, At 1,300

The No. 1 Ernest V. Brod, scheduled as a Buda Lime test, was at 1,300 feet on Wednesday, with the drilling crew preparing to run electric logs and test the formation.

W. H. Mahan, a Waco operator, is drilling the wildcat, which was spudded on Tuesday of last week. Location is on a 52 acre lease in J. A. de Pena Survey three and one-half miles southeast of Buckholis and in the Pettibone area.

The Brod has been hampered by recent rains and is expected to wait on wet grounds to dry before being drilled deeper to the Buda, expected around 1,700 feet.

Two other scheduled wildcats, both in south Milam, are waiting on improved weather conditions before starting drilling operations.

### Council To Reopen Loader Bidding

The City Council in special session Monday asked for new bids on a front-end loader for the City Street Dept. They had rejected four bids last week.

Officials said specifications were being redrawn for new bid opening Friday at City Hall.

Bidders said the previous specifications were unclear, officials advised The Herald.

Councilmen also reviewed the housing authority program for the additional 50 units and community center.

### Perrin, Collins, Camp Join CIF, Inc. Board

E. A. Perrin, Albert Collins and James D. Camp are newly elected directors for the board of Cameron Industrial Foundation, Inc.

The new directors will join Narvie Caperton, president; R. W. Wells, vice president; Henry Siebman, treasurer; and John B. Henderson, Jr., Don Humble, Gene Smitherman, Frank Luecke, Forrest Sapp, Lester Williams, Hillard Thomas, Bill Burns and Monroe Fuchs, directors.

### BOARD ACTS...

## CIF Buys 5 Acres, Opts On 10 More

The Cameron Industrial Foundation, Inc. has purchased an additional five acres of land and taken option on 10 more acres, according to N. L. Caperton, Foundation president.

The Foundation Board two weeks ago authorized the purchase of five acres of land from Flirsh Ermis, a site facing the Southern Pacific on the west and the access

road on the south to Walled Lake Door Co. The site is north of Cameron, outside the city limits.

Foundation option includes five acres to the north of the newly acquired site and five more to the east of the site.

The Foundation last year purchased 10 acres north of the present Walled Lake Door Co., which is now expanding its production

facilities and soon is scheduled to add 24,000 square feet of factory space.

The Southern Pacific line from Cameron to Rosebud goes through the middle of the industrial park now developing.

Officials are looking to development of the industrial sites for prospects, Caperton said.

A large, lighted sign erected last year by the Foundation at the intersection of Fourth and Travis advertises the availability of sites 24 hours a day.

The sign boosts Cameron in the "Center of Texas Metropolitan Markets".

Foundation officials also are working on brochures for industrial prospects.

Funds pledged and raised by the non-profit corporation approximate \$65,000. Vice president is R. W. Wells and treasurer is Henry Siebman.

### J. H. Angell, 62, Dies Of Heart Attack; Was Compress Supt.

J. H. Angell, 62, died at 1:45 a.m. Wednesday of an apparent heart attack. He was superintendent of the Cameron Compress at the time of his death.

Funeral services will be at 4 p.m. Thursday, (today) at the First Baptist Church with Rev. J. E. Lafferty officiating. Burial will be in Oak Hill Cemetery.

Mr. Angell was born June 14, 1905 in Milam County and had lived in Cameron for the last 44 years.

He is survived by his wife, Mrs. Inez Angell of Cameron; two daughters, Mrs. Betty Lou Dornier of Houston, Mrs. Edna Merle Miller of Texas City; three brothers, Sam Angell of Albuquerque, New Mexico, Earl and V. A. (Buck) Angell, both of Cameron; two sisters, Mrs. Clyde Hensley of Cameron, Mrs. Ethel Van Bibber of Waco; and 11 grandchildren. Pallbearers will be Don Humble, Henry Schattle, Billy Braden, Harold Stanislav, Terry Hardwick, and Spencer Short.

### NO NEW FILINGS

No new filings were reported in school or city this week. And at presstime, no new filings had been noted by County Democratic Chairman Max McClaren.

## Mothers March For MOD Drive

L. W. Stroup, Jr., Milam County March of Dimes chairman, has scheduled fund raising plans for the local 1968 drive.

### 50 Young Growers To Compete In Milam Junior Poultry Show

Plans are being made for the annual Milam County Junior Poultry Show and Contest which will begin March 29.

Bill Hornung, Chamber poultry committee chairman, announced this week that agreement forms for sponsoring a Milam County youth in the program are available at the Chamber of Commerce office.

Hornung said there will be a limit of 50 growers and 50 sponsors this year. Sponsor fee will be \$11, covering cost of 50 baby chicks per grower, prizes and awards and tickets for sponsor and grower to the awards banquet.

The baby chicks will be distributed to young growers on Friday, March 29 and at the end of an 8-week growing period each grower will select his five best broilers and enter them in the show for judging. Show and awards banquet will be May 25.

### Journal Failure Derails 17 Cars

About 16 or 17 freight cars noon Sunday were derailed at Hoyte on the Santa Fe Railroad. No injuries occurred.

Dallas spokesmen told The Herald a "journal failure" caused the derailment.

### PETRIFIED WOOD, LITERARY...

## Hoyte Once Produce Center

By Jan Luecke

Hoyte, a community of scattered homes on SH 36 south of Cameron, was a center for shipping fresh produce in the early 1900s. A store, produce packing shed, train depot and school were the gathering points for area farmers and their families.

Petrified wood can be found in abundance around that section of the county and was a problem to farmers trying to clear new land.

H. B. Pressley, like others, uncovered wagon loads on his property and later used some of it to build his home, now a landmark in the area. Outside walls of the house and 2-car garage are entirely of mortared petrified wood. Tall tree trunks, now solid rock, were unearthed along washes and creek beds to form pillars on the large front porch.

Mrs. Pressley said she was attracted by the beauty of the petrified wood. After seeing a rock house on a family trip, the house at Hoyte was planned.

"The contractor quit the first day when I insisted they were showing the wrong side of the rocks. My husband persuaded him to finish the job, and grumbling about 'women' they tore out what they had done the day before and started again."

The house still attracts passers-

by who regularly come to her door for a closer look at the House of Rock.

### LITERARY SOCIETY

The Oakdale Literary Society was a social event and cultural influence at the turn of the century. It was a weekly gathering for residents of the community with the entire family attending and listening to or participating in pre-designated debates.

The programs covered local and national topics each Saturday night.

The Hall was the familiar name for the Hoyte school building. It was meeting place, stage for political debates, sanctuary for religious services on Sunday and shelter for the Milam County Fair in the early 1920s.

The school, with a peak enrollment of 50, was a consolidation of one room schools at Rice, Coon Switch and Oakdale. Teachers lived at the home of Rev. Calvin Pressley.

Rev. Pressley played a major role in Hoyte's early days. He was a Presbyterian minister in South Carolina before moving his family to Milam County. Settling in the Hoyte area, he also established churches at Marlow and Rosebud, serving them on alternate Sundays.

During those years cotton was the major crop.

John B. McLane, a Cameron businessman, and landowner in Hoyte, gave 10 acres of land to the Santa Fe Railroad for a passing track and wood loading spur. A box car served as the first station house and Rev. Pressley, whose home was just across the road, was appointed express agent.

### 'THE TANGO'

The train which connected Cameron and Hoyte was known as "The Tango" and carried both passengers and freight.

When cotton became unprofitable, farmers in the area switched to truck crops and fruit orchards began to dot the landscape. A truck growers' association was formed and the organization built an open shed to distribute produce. Later the Santa Fe built a produce packing shed. H. B. Pressley, son of the Presbyterian minister, operated the produce shipping business from 1910 until the late 1920s.

Sam Nicholson owned and operated the Hoyte store which was located near the train depot. It was closed after his death in 1928.

Children now attend the Cameron schools and the former school house has been remodeled and is now the home of the Virgil Cowards.

### ARCHITECT ASKS HELP OF CITIANS

Jack Whitworth, architect on the new 50-unit federal housing project, Wednesday told Rotarians of the need for community support for a proposed Community Center in the project.

He said a 4,000 square-foot building is scheduled for the W. Sixth St. and Jefferson location which would provide 2,500 square feet meeting area for resident recreation and activity and various organizations in Cameron.

The 50-unit housing project, described as a "supplement" to the 50 units already built, will be built in two locations. One is adjacent to the North Cameron units near Country Club Drive.

The second is in the vicinity of Newton Hospital along West Sixth St., Jefferson and that area. Several square blocks in both sites are already dedicated to the project.

He said that North Jefferson will be widened at one point to match an already widened stretch of the street.

### UNIT COST \$14,000

Cost of the project per unit will approximate \$14,000. Whitworth told Rotarians, including right-of-way, land acquisition, paving, construction, engineering and architect fees.

Anticipated cost of the community center is to be between \$4,000 and \$67,000, he said. It would include 1,500 square feet for offices and areas for the Cameron Housing Authority.

The remaining 2,500 feet of brick and heidite block building would be devoted to kitchen facilities, meeting and craft rooms.

He suggested the possibility of a Scout group operating the facility or various clubs sharing responsibility in its operation or providing funds for operation. He estimated utilities would run about \$1,000 annually. Other towns draw funds from United Fund and City revenue.

Whitworth emphasized that an appeal will be made to various Cameron women's and civic groups for support to insure construction of the center.

### SAFETY FEATURES

He noted that safety features have been included in the construction of the housing units for the elderly. He said special glass, wider doors and other safety devices have been designed into the structures.

The units in the two locations will range from duplex to quadruplex type construction. Construction will be semi-fireproof, the design being similar to the original units, built about 10 years ago.

He added that \$4,500 worth of equipment was scheduled to be installed in the Community Center. Program chairman was Henry Litzman, secretary of the Cameron Housing Authority.

### Rites Thursday For Alfred Wohleb, 70

Alfred J. Wohleb, 70, died at his home, 203 Tyson, at 10 a.m. Tuesday. Funeral services will be at 11 a.m. Thursday (today) at Marek Burns Funeral Home with Rev. Wirt W. Skinner officiating. Burial will be in Oak Hill Cemetery.

Mr. Wohleb was a retired employee of McLane Wholesale, and a veteran of World War I. He was a life-long resident of Cameron.

He is survived by one brother, Walter Wohleb of Philadelphia, Pa. and one sister, Mrs. Ann McAshan of Houston.

### CISD Title Funds \$8,540 Over Plan

Supt. D. R. Dodson Wednesday said that final approval has been received on 1967-68 Title I funds for Cameron Independent School District.

The approved total is \$137,921. Dodson told The Herald, an increase of \$8,540 over the tentative approval in the fall of 1967.

Title II funds will be \$3,493.40, he noted.

A friend handed this to F.M.L.: "The managing editor of a large metropolitan newspaper issues the following instructions to young reporters:

"We do not commence, we begin. We do not purchase, we buy. We do not pass away, we die. We do not reside in residences, we live in homes. We do not retire, we go to bed. Our priests, ministers and rabbis are not divines. Our lawyers are not barristers. Our undertakers are not morticians. Our real estate dealers are not realtors. Our plumbers are not sanitary engineers. Our cobblers are not shoe rebuilders. All fires are not conflagrations. And the first reporter who writes of a body landing 'with a dull and sickening thud' will land with a dull, sickening thud in the street, with hat in one hand and pay envelope in the other."

This would issue, as well, from the editor of a small town newspaper.

**SPEAKING OF TYPOS** — When President Johnson announced the record budget of \$186.1 billion, he nor Mrs. Johnson realized they would be jointly responsible for explaining it.

That is, according to a lead story in the Houston Post of January 30. In the first paragraph, President Johnson was duly noted for having sent to Congress "a record \$186.1 billion budget he describes as tight, stringent, sound and realistic."

But in the second paragraph, it read:

"The new spending blueprint calls for selective expansion of some domestic programs and cutbacks in others but Mrs. Johnson contended it is the Vietnam war -- not domestic spending -- which makes a tax increase imperative." Sounds like home.

## Cameron To Host Fine Arts Exhibit

A collection of pictures, selected for exhibit by the Texas Fine Arts Association, will be on display at the Cameron Public Library February 14.

The exhibit will mark the second showing of the Fine Arts Association traveling exhibit in Cameron.

A variety of mediums are included in the 20-painting show: watercolor, ink drawing, acrylic and collage, casein, oil, and pastel. Pictures were selected for the

### Dedication Sunday At Ben Arnold Church

The United Church of Christ at Ben Arnold will dedicate pews at the Sunday morning service, 10 a.m. February 4. The church at Ben Arnold was built in 1952 following a merger of the congregations at Burlington and the Vogelsang community.

Rev. C. E. Wierth, pastor, invited friends of the congregation to the special service. A dinner will follow the dedication.

## Yoemen Score District Victory

By Fritz Pratt

The Fighting Yoemen took their first varsity game in district play Tuesday night when they defeated the Hearne Eagles 77-72.

The five-point lead was the result of a final quarter rally by the Yoemen after they had trailed the Eagles by two or three points in the first three quarters.

In the scoring column Tommy Terrell turned in a blazing performance as he totaled 25 points. Wayne Kirk was a close second with 24.

Other Yoemen scorers were Charles Maddox, 9; Dennis Chapman, 8; Glenn Fogle, 7; and Mike Miller, 4. Top Eagle scorer was Zieg with 21.

The Yoemen had a great night

at the free throw line as they sank 80 percent of their free shots. Foul total was a low 17.

Artists represented include: Jesse A. Almazan of San Antonio, Charles Baugh of McAllen, Mrs. Woodlief Brown of Abilene, Owen Cappleman, Austin, Maudee Carron, Port Arthur, Frank Gerriets, Beaumont, Veila Gindratt, Beaumont, Polly Howerton, Cuero, Betty Hurd, San Antonio and Paul Kelphe, Commerce.

Also: King B. King, Greenville, Helen Markham, Tyler, Jerry Newman, Beaumont, Ruby McIntosh, Austin, Mary Ramsey, Austin, Bryant J. Reeves, Temple, Jerry Seagle, Corpus Christi, Mary Southern, Port Arthur, Beverly Weiss, San Antonio and Wallace H. Wright, Waco.

Mrs. Robert Ellett, art committee chairman for the Library Friends, is in charge of arrangements. The showing is sponsored by Three Arts Club.

### JR. VARSITY PLAY

Junior varsity team was not so fortunate, as they lost to the Eagle juniors 72-51, in spite of valiant efforts. The Eagle lead climbed from 4 points at halftime to 15 in the third and on to a final 21 point lead at the final buzzer.

Robert Brashear racked up 28 points for the night, with Johnny Steamer making 10, James Mueck 3, and Jerry Richardson, Norman Trubea, John Black, Kenneth McLerran, and Marvin Young making 2 each. Fouls for the team totaled 29, but they sank 54 percent of their shots.

## A Cameron Teen Club . . .

By now, most of the Cameron teen club is fact. A room in the rear will be redone for ping pong and other game equipment now in the front. But the development of this facility, mostly by teenagers themselves, is a hallmark in community development here. It has included teenager's specific leisure time needs.

"Kudos to the many youngsters and

their advisors who established the program. And kudos to the adults, yet unknown, who will join in acting as chaperones for future Katacomb Teen Club activities.

Not every teenager will find his leisure time served at Katacomb, but it will suffice until downtown movies and other suitable facilities are available in Cameron.

## Personal Experience . . . . .

When barely able to qualify as a teenager, this newspaper editor once faced an alternative of a Midwest gang promising to test "a new kid in town," which he was, or of staying home.

Sooner or later, a similar alternative awaits us all.

The parents said, in effect: "You must go. Whatever, we can't do it for you."

They were right. Hazing or perhaps a fight is the way some boys test others. And though detestable, it is better to get on with it.

It applies, as well, to a town, or any institution, which has problems. It is simple logic to know a stand is in-eligible. It is complex, sometime, to know where the stand is taken. If one expects to win, one stands on chosen ground.

## What Others Say . . .

### More Gorgeous Gears . . . .

"Engineers are often loath to disturb the beautiful symmetry of machines by providing for the people who have to operate them," says David Meister. As technical director of Bunker-Ramo Corporation's Human Factors Program he bumps into this attitude all the time.

We think he's hit on an important, and disquieting, aspect of our technological world. Many engineers do seem to wear blinders. In their zeal for perfection, they would force man and his environment to fit the technically ideal.

Mr. Meister deals largely with the mutual adaptation of men and specific machines. We would extend his commentary to include the impact of all of technology on all of our environment.

How often do the controls of the beautifully designed machine come awkwardly to hand. How often too does the new highway system, factory complex, or housing estate smash rudely into a countryside. And how often does a seemingly desirable pest-control program poison our rivers or landscape?

We constantly wonder why more attention isn't given to the over-all im-

pect of these things.

Mr. Meister notes three reasons. Information needed to assess these larger question isn't always available in time. Or, when some such information is provided it lacks relevance to the engineers' design problems. But most important of all, Mr. Meister says, is the attitude of engineers themselves. In many cases, they couldn't care less.

By training, experience, and inclination, many engineers are thing-oriented. Like so many people in this complex age, they become locked into the viewpoint of their specialties. When man has become the dominant factor in reshaping the earth's face, this is a dangerous limitation. Our educational system needs to revamp its teaching to help our technologists take the large view of their activities. Beyond this, engineers have a continuing responsibility to keep informed of the relevance of their work to the total quality of human life. And the rest of us have a responsibility to keep informed of the potential of technology so that we can help plan its wise use in building a better world.

## One GOP, Seven Demos Jam Governor's Column

By Vern Sanford

AUSTIN  
Political candidates have only a few more days to make up their minds whether they are going to have a share of the action in the slam-bang 1968 races.

Already the governor's column is jammed with impressive Democrats who include former State Rep. Dolph Briscoe Jr., former Atty. Gen. Waggoner Carr, Secretary of State John Hill, former U.S. Deputy Ambassador to Vietnam Eugene M. Locke, radio executive Gordon McLendon, insurance executive Pat O'Daniel and Lt. Gov. Preston Smith.

Briscoe is from Uvalde. Carr and Smith are from Lubbock. Hill is from Houston. Locke, McLendon and O'Daniel are from Dallas.

Republicans promise a candidate or two for governor — maybe three — in their own primary. Already announced is Dallas Attorney John Trice.

While the spotlight will be on the Democratic governor's race in the May 4 primary, there will be action in the lieutenant governor's contest also where House Speaker Ben Barnes faces opposition from State Rep. Don Gladden of Fort Worth.

Court races have brought forth the following candidates:

For Supreme Court (Place 1): District Judge Sears McGee of Houston and Associate Justice Matt Davis of the Texarkana Court of Civil Appeals. (Place 2): District Judge Tom Reavley of Austin and Chief Justice James G. Denton of the Amarillo Court of Civil Appeals.

For Court of Criminal Appeals: Judge W. A. Morrison, incumbent, and State Attorney Leon Douglas of Austin.

CERTIFICATION PROGRAM  
Texas Animal Health Commission's crash program for brucellosis certification is picking up steam before a US Department

of Agriculture regulation makes it impossible to move cattle from uncertified counties out of state. Only 97 of the State's 254 counties remain to be certified.

In December, the Commission began testing for initial certification in 26 new counties and brought the number in the certification process to 61. To date 36 counties have not started any program.

Federal regulation is expected this year. AHC, in cooperation with USDA animal health authorities, is working toward total certification.

Commission reported that the screwworm epidemic, on the other hand, is well under control. Confirmed cases in Texas dropped from a total of 63 in November to four in December.

### PLANNING FUNDS APPROVED

Gov. Connally has approved \$30,000 in grants in 29 counties to aid regional planning by local governments.

Largest grant, \$22,000, went to the North Central Texas Regional Planning Commission for support of its work program in ten counties.

A grant of \$7,500 went to the West Central Texas Council of Governments, made up of 16 counties.

Nortex Regional Planning Commission received a \$6,500 grant for regional planning programs in Archer, Clay and Wichita Counties.

### INDUSTRIAL AWARD

Until February 5, Texas Industrial Commission is accepting nominations for "The Governor's 1967 Industrial Expansion Award." Nominees should be 1966 manufacturing concerns that expanded in 1967 to the economic benefit of the community at large.

Another point may be won by showing that the nominees contributed to civic and community development in 1967. Award will be presented during the Governor's Conference on Industrial Expansion in Austin's Municipal Auditorium on April 3.

### PARKS-WILDLIFE BUDGET

Texas Parks and Wildlife Department is proposing a \$22 million budget for the year beginning Sept. 1, 1968.

That would be a \$7 million increase over the current appropriation and would cover renovation of Fort Leaton in Presidio County, McKavett near Menard, Lancaster near Ozona, Griffin near Albany, Concho at San Angelo and Richardson near Jacksboro, as well as \$2 million for wildlife management area land acquisition.

### STATE FILES VACANCY SUIT

Atty. Gen. Crawford C. Martin filed suit for the state seeking to recover as much as \$262 million and as many as 315 oil or gas wells if Walter C. Atchley succeeds in his vacancy suit against State Land Commissioner Jerry Sadler. Atchley filed in the 36th District Court in Sinton to establish that a tract of oil and gas rich land in the Welder Ranch area is really vacant school land. He filed after the Land Commissioner turned down his vacancy claim.

Martin is now going a step further by filing the petition to intervene. He says he agrees with Atchley, but if he is wrong, and the tract he filed on is not vacant, another is, and the state should recover oil and gas production from the contested area since drilling began in 1942.

### COURTS SPEAK

State Supreme Court will hear arguments March 13 by Franklin County landowners to abolish the local water district. Also the application for release sought by a Fort Worth man sentenced for contempt of court in a workmen's compensation case.

Dear editor:

I had started to use a copy of The Houston Chronicle to start a fire in my fireplace the other morning, I like to be fair about such things and while it's true I have kidded the big dailies some I'll have to admit that when it comes to starting a fire on a cold winter morning The Chronicle is better than The Herald, although when it comes to settling back in the warmth and finding out what's happening around here, The Herald wins out every time, when I noticed a headline on the front page.

I tore it out and used the rest of the paper to start the fire, and after the wood caught sat back and read this article, which reported that a man running for office in this Presidential election year said:

"My fellow Americans, I believe the time has come when the government ought to be given back to the people."

I didn't think much about this until a little later in the day and then it hit me.

Whoa, I said. Hold on there just a minute. I'm not sure I want it.

If somebody offered you an enterprise which was head over heels in debt, was operating on borrowed money, and was living way beyond its income, would you be interested in having it thrown in your lap?

You take a government which is over a hundred billion dollars in debt on the national level, not telling how many other billions on the state and local level, and I don't believe I'd be interested in taking it over.

Understand, I don't blame a politician for wanting to get rid of it, but don't unload it on me.

If there ever was a time when a gift horse ought to be looked in the mouth, this is it.

I sympathize with all officials on all levels of government, if

Same Court upheld the right of a city to regulate the sale of liquor and beer within its boundaries when it refused an Amarillo distributor's appeal of a Liquor Control Board license denial.

High Court upheld \$11,289 default judgment won by a former Central Airlines President in a suit for vacation time compensation.

By a divided vote, the Court also reversed and sent back to trial courts a Hidalgo County man's suit to establish royalty rights on an oil lease. Lower courts had held against the claim of W. R. Montgomery.

In a cigarette tax counterfeiting case the Court of Criminal Appeals has upheld the seven year sentence of Mair J. Schepps, Houston tobaccoist.

### MEDICAL, DENTAL SCHOOLS

At least one and maybe two new medical and dental schools should be authorized by the Legislature next year, according to the Legislative Budget Board.

Higher Education Commissioner Jack K. Williams reported need for one new institution in each category.

Lt. Gov. Preston Smith said at least two each should be authorized.

Higher Education Coordinating Board has favored putting a medical school in Houston and a dental school in Dallas. Texas Dental Association favors San Antonio for the dental school since a medical school already is there.

BEN FRANKLIN

CAMERON, TEXAS

I was in their shoes I'd want to give it back to the people too, but I'm sorry to have to resort to them that I'm just not in financial shape to take the government buses at this time.

Yours faithfully,  
J.A.

lunch in the studio commissary, introducing him as "Dr. Meltz, an old country doctor from the valley."

"The producer, as expected, soon got into the subject of old books. "Personally, I can't stand them," said the doctor. "They always smell. Fact is, I just threw out an old German Bible that's been around the house for years. Whew! It certainly was moldy!"

"Old German Bible?" echoed the rare book fiend, pricking up his ears. "Who printed it?"

"Oh, I don't know," yawned the doctor. "German name - Gutenberg-something or other."

The producer's face turned an apoplectic red. "N-n-not Gutenberg!" he managed to ask.

"That's it - Gutenberg."

"Good grief, man!" shouted the producer. "You threw it away! Come on, we'll hire a plane. We've got to find it! It's the Gutenberg Bible. It's invaluable!"

"Hold on, son," said the actor calmly. "Even if it is the Gutenberg-whatever-it-is Bible, it ain't worth anything now. Some character called Martin Luther has scribbled his name all over it."

## HD NOTES--

By Christine Laws

Fashion looks change as fast as a woman's mind and this year the look is as varied: a touch of the Thirties and the military ruffles, short jackets and waistlines belted naturally or higher. The scope is wide enough for something for every figure, age and personality.

Return of the Thirties influence has entered the fashion pictures. The long skirts and soft blouses look very feminine. The blouses feature tiny yokes, puffed sleeves and are worn with a wide belted semi-full dirndl or skirt. Skirts, as one designer described them, "bouncing, swinging, flipping one for everywhere in every mood."

The tendency goes to a slim, trim bodice and ease at the hemline.

The military flavor remains with capes, buckles, epaulets and buttoned cuff tabs. The Mao look adds a new twist with its mandarin collars and buttons.

Colors are muted grays, beiges, browns, Victorian pastels and bright prints with fabrics showing texture. Coral or shrimp is new with lots of turquoise and yellow.

The big question is hemlines. Two main lengths are being shown. The midi, which is between the ankle and the knee, highlights evening wear. For daytime, hemlines will stay short, but not mini-short, just above the knee.

One Spanish house showed skirts which stop precisely four centimeters above the knee.

Zipers have taken on a dual role as both decorations and closures. Ribbon, fancy braid, lace or glitter can be added to zippers and closings.

The panty hose can solve the problem of exposing the tops of stockings when seated and buyers say panty hose sales are rocketing. A lightweight girdle may be worn over these stockings.

In the new total leggy look, the weight of the hose should be slightly lighter than the weight of the dress fabric. Heavy wool fabrics call for heavy textured or opaque hose. Opaque crepe hose should be worn with lightweight wool crepe and lightweight nets or laces with cotton and linen.

### Personal Mention —

Visitors in the George Schroeder home were Mr. and Mrs. B. A. Miller of San Antonio and Mr. and Mrs. Arthur Inge of Buckholts.

## MISS STEAKLEY JOHN McCLAREN WED IN TEMPLE

Miss Sue Frances Steakley and John McClaren were married at 7:30 Saturday evening in the First Baptist Church of Temple. Dr. Grady W. Steenalt officiated at the candlelight wedding.

Parents of the couple are Mr. and Mrs. Dan Lewis Steakley of Temple and Mr. and Mrs. Lawrence McClaren of Cameron.

Given by her father in marriage, the bride wore an empire style gown of angel skin peau de soie and re-embroidered Alencon lace. Her full length veil was of Brussels lace and she wore an antique necklace which belonged to her late paternal grandmother. She carried a cascade bouquet of white butterfly rose centered with a white Georgian orchid and placed atop her white Bible.

The bride's attendants were Mrs. Bill Doughty, matron of honor, Miss Nancy Camp, maid of honor

Miss Louise Ivey and John Joseph Dillon will be married February 14 in the Chapel of St. Thomas University, Houston. Miss Ivey is the daughter of the late Mr. and Mrs. Daniel H. Ivey of New Orleans, La. and Mr. Dillon is the son of Mr. and Mrs. Paul Dillon of Cameron.

and Misses Sara Richards and Anne Hoge, bridesmaids. They wore identical floor length gowns of deep rose-pink saki with matching pillbox hats. Each carried a single long stemmed pink rosebud.

Jimmy L. McClaren of Austin served as his brother's best man. Groomsmen were Larry W. McClaren, brother of the groom, Herbert Schroeder Jr. of Austin and Melvin Rivers of Dallas. Serving as candlelighters and ushers were Dan and Rusty Steakley of Colorado City. Other ushers were David Hoge of Knox City and David Schroeder of Columbus.

The bride's parents were hosts at a reception immediately following the ceremony at the City Federation Clubhouse.

Mr. Max McClaren of Cameron provided organ music during the reception hours.

The bride's table was covered with a floor length white lace cloth over pink. An arrangement of pink and white carnations and stock in a tall silver epergne candleabra centered the table. The groom's table in the Terrace Room was covered with a deep rose-pink cloth and centered with silver candleabra entwined with greenery. Silver appointments were used at both tables.

The houseparty included Misses Madelyn and Melanie McClaren of Cameron and Mrs. Jim McClaren of Austin.

After a short wedding trip the couple will leave for Maryland where they will make their home while Mr. McClaren is in the Navy.

The bride is an honor graduate of Temple High School and is a junior at Baylor University. She is a member of Alpha Lambda Delta, national honor sorority and of Pi Alpha Lambda, social sorority. She spent two months last summer touring Europe with a student group.

The groom is a graduate of Yoe High School and attended Southwest Texas State College in San Marcos and Temple Junior College. He is presently serving in the U. S. Navy and is stationed at the Patuxent River Naval Air Base, Md.

Mr. and Mrs. Lawrence McClaren were hosts for the rehearsal dinner Friday night at the Ponderosa Restaurant in Temple. The centerpiece was in the bride's chosen colors of pink and white.

## MISS MARCIA SCHILLER MARRIES RONALD BRYAN IN CHURCH SERVICE

Miss Marcia Anita Schiller and Ronald Eugene Bryan were united in marriage at 8 p.m. Friday evening, January 26. The Rev. James Lafferty performed the double ring ceremony at the First Baptist Church in Cameron.

The bride is the daughter of Mr. and Mrs. Jerry B. Schiller of Cameron and the groom is the son of Mrs. John Bryan of Cameron and the late Mr. Bryan.

For her wedding, the bride chose a white, three-piece knit suit featuring a picture frame collar. She wore a tulle and velvet hat topped with a chiffon rose. Her jewelry was a diamond pendant and matching earrings, a gift of the groom. She carried a colonial bouquet of white carnations centered with a purple orchid atop a white Bible.

Mrs. Littleton C. Barrett, of Cameron, sister of the bride, served as matron of honor. She wore a red wool dress with matching shoes, hat and gloves and wore a peppermint corsage.

Douglas Bryan of Cameron served his brother as best man.

Following the ceremony, a reception was held at the home of the bride's parents. Miss Valerie Autry, niece of the groom, presided at the registry table.

The bride's table was covered with an antique designed ecru cloth and was centered with an arrangement of red roses. The two-tiered wedding cake was accented with deep red roses, featuring white swans on a large reflector and was served by Mrs. Barrett.

Mrs. Jesse Caldwell of Palestine, sister of the groom, served the punch and coffee.

Mrs. Bryan is a 1964 honor graduate of Yoe High School and

is presently employed as a medical secretary in the radiology department at Scott and White Clinic in Temple. The groom attended Yoe High School and is presently serving with the U.S. Army at Ft. Polk, La.

## County Agent's Notes...

### Modern Pruning Methods Told

By J. D. Moore

Pruning plants is an art which can be acquired through learning certain basic principles and the exceptions to them, and through experience and close observation. All new shoots begin as buds. Sometimes these buds have been formed and have been dormant for a long time. When a plant is pruned, new shoots are likely to grow from these dormant buds.

The cardinal rule to follow in pruning ornamental plants is the same as that which applies to fruit bearing plants. If you have no good reason for pruning a plant, put the tools away without using them.

The purpose of pruning is to remove unwanted growth as outlined here in order of importance:

1. To remove dead wood or winter-killed growth.
2. To balance the amount of top or branch growth on a plant with the amount of root system at the time of transplanting.
3. To remove parts of plants that are injured seriously by diseases or insects.
4. To repair injuries to the plant by weather conditions, such as storms.
5. To rejuvenate older plants by removing older stems and branches to encourage vigorous new young stems to take their place.
6. To maintain or develop a desired size or form.
7. To produce more or better flowers or fruit.

### Pruning Shade Trees

### Poage Hails Farm Credit System In Colorado Speech

Although shade trees probably require less pruning than other groups of ornamental plants, at times pruning such trees is necessary. When large trees are grown for shade, they also shade themselves, and sufficient sunlight is necessary for the development of good foliage. Trees require the removal of branches that interfere with good plant growth and form as well as all dead or diseased limbs.

Some pruning is necessary on shade trees for safety and for the health and beauty of the tree. Corrective pruning sometimes is needed on young trees. This is done when the trees are young to prevent the formation of a weak V-shaped crotch and limbs that might interfere with future growth.

After trees are pruned, a dormant oil spray should be applied. The oil spray cannot be applied while foliage is on the trees.

Oil spray is used to control scale insects. These insects have a protective covering that protects them from most insecticides and oil must be used to control them.

Most seed houses and insecticide dealers handle the dormant oil. The recommended amount of dormant oil for pecan trees is 3 1/2 gallons of a 97 percent oil emulsion to 100 gallons of water.

For smaller amounts use 3 to 4 tablespoons of dormant oil to one gallon of water. Fruit trees as well as pecan trees should be sprayed now.

Team captains of the groups are Mrs. Clayton Clowers, Mrs. Doyle Ray, Mrs. Fred Spinn, Mrs. Hulon Farrell, Mrs. Donald Godwin, and Mrs. C. S. Cobb.

Mrs. Gunter said all of the workers will meet at City Hall that night at 7 to turn in their reports.

John B. Robuck of Dallas has been named chief engineer of Texas Power & Light Company, T. L. Austin, Jr., TP&L president, announced.

He succeeds P. G. Wallace, TP&L vice president and chief engineer who will remain with the Company as a consultant. The changes are effective February 1.

Succeeding Robuck as assistant chief engineer, will be Raymond Coffman, formerly head of purchasing. Purchasing responsibilities will be assumed by Gerson Berman, previously the Company's transmission and substation design engineer.

Robuck became associated with the Company in the Taylor district in 1927. Since that time, he has held numerous positions, including assistant division engineer, assistant superintendent of transmission substation engineer, system engineer and assistant chief engineer.

"In this way we would be able to continue to finance their growing credit needs without any substantial burden on the Federal treasury. Farm Credit has, as I see it, given us the example. I know of no reason why this example should not be used for the benefit of these other groups."

The Texan noted that there now is no government money in any of the 12 Federal Land Banks, and that the entire farm credit system has become almost totally farmer-owned. He suggested it might serve as a model for other government programs.

"The Land Bank system of farmer ownership has worked so well that many of us thought that it should be extended to the financing of our rural electric and rural telephone systems," said Poage.

"I do not mean by this that we should, as some have suggested simply dump this stupendous program, which presently amounts to more than \$5 billion, on the existing Farm Credit System. I simply mean that we should, as I see it, create new borrower-owned banks for the electric and telephone borrowers of REA (Rural Electrification Administration)."

"In this way we would be able to continue to finance their growing credit needs without any substantial burden on the Federal treasury. Farm Credit has, as I see it, given us the example. I know of no reason why this example should not be used for the benefit of these other groups."

NUMBER CATTLE ON FEED UP  
Cattle being fed for slaughter in Texas totaled 810,000 head on Jan. 1, 1968. The Texas Crop and Livestock Reporting Service said this is 20 percent more than a year ago, 2 percent above the number on feed Dec. 1 and 26 percent above the 644,000 head on feed last Oct. 1.

PECAN SCAB EXPENSIVE  
Pecan producers with only a few trees or a commercial orchard are reminded that pecan scab is a profit grabber. Successful control depends upon the use of a fungicide at the right time and in the proper amount. Local county agents have details on a control program.

While the signup period for 1968 commodity programs will extend through 6 weeks, farmers who wish to take part in the programs are urged to file their applications as soon as they decide on the 1968 production plans. Time has a habit of getting away from us sometimes before we know it, so it's a good idea not to delay in filing program intentions too long.

## License Plates On Sale; Car Fees Changed

AUSTIN

State Highway Engineer J. C. Dingwall said that Texas will register approximately 7 million vehicles during 1968. "This is the largest number in our history," Dingwall said.

All 1968 Texas license plates have been delivered to the 254 County Tax Assessor-Collectors for issuance during February and March. Motor vehicle owners can avoid long lines by registering during the month of February, rather than waiting until the March rush.

Owners should bring four items to the Tax Collector's office when registering vehicles: certificate of title, 1967 license receipt, current resident address, and zip code.

State law requires each owner to register his vehicles in the county in which he resides and to present his certificate of title as evidence of ownership.

During the 1967 session the Texas Legislature amended the Texas Registration Law by changing passenger car license fees and establishing a minimum fee of \$5.30 for all vehicles, including boat trailers.

The new rates for passenger cars are as follows:

Up to 3,500 lbs.	\$12.30
3,501 - 4,500 lbs.	22.30
4,501 - 6,000 lbs.	30.30
More than 6,000 lbs.	.55 per 100

## ASCS News-

By Alva E. Sanders

Signup date for farmers in Milam County who wish to take part in the 1968 feed grain, wheat and cotton programs begins February 5.

All commodity program signups will be held during the same period - Feb. 5 through March 15. Signup applications indicate the farmer's program intentions, including the extent of his participation in the programs.

Under both the feed grain and cotton programs for 1968, farmers may earn diversion and price support payments as well as qualify for price support loans on their corn and grain sorghum crops; feed grain diversion payments will be available to all program participants in 1968.

The wheat program provides price support loans and marketing certificates to bring returns up to full parity on the part of the wheat crop allocated for domestic use; no diversion payment is available for wheat.

Rockdale Works Tops In Safety! — Members of the Ingot Department receive Hemisfair tickets from Foreman Ralph Becker (second from right). From left, Alvin A. Zalesky, Cameron; Sam L. Johnson, Thorndale; Robert B. Biehle, Rockdale; Becker, Thorndale;

James A. Terry, Cameron. A ticket to the San Antonio spectacular was given each employee by the company in recognition of the plant's outstanding safety record in 1967. The 1277 Alcoans worked an entire year without a disabling injury.

## Naman Tells Texas Farmers To Plan '68 Cotton Crop With Caution

Addressing a conference of Farmers Union District 8 leaders at Midland last week, Texas Farmers Union President Jay Naman of Waco said, "It would be tragic if Texas cotton farmers do not exercise caution in making their plans to plant cotton in 1968."

"Cotton trade journals, processors and handlers are making outlandish predictions of higher cotton prices next year to provoke farmers to 'throw caution to the wind' and plant 95 percent of their allotment. There is certainly nothing about current markets to inspire optimism, and the textile mills are not offering contracts at higher prices."

"Farmers Union is launching a statewide campaign to encourage cotton producers to carefully study the alternatives as they apply to their individual farms before making a decision on how much to plant. Our county organizations are distributing information including examples of cost of production computations for farmers to use as guidelines in figuring their own costs."

"I am confident that farmers will base their planting plans on the option that will return them the most net profit, taking into consideration the probability that

production costs next year will be higher than last. I doubt if cotton producers will buy the rose colored price projections that are being peddled by those who have a vested interest in more production and cheaper cotton."

The Midland meeting was one of a series of district meetings that

are being scheduled by the Farmers Union district organizations during January and February.

Charles Hensley of Cameron, director of District 7 Farmers Union comprising several Central Texas and Blackland counties, has announced that the meeting in Waco on Thursday, Feb. 1, will be held at the Elite Steak House on Valley Mills Drive beginning at 10 a.m. Officers and directors from District 7 have been invited to attend, but all Farmers Union members are welcome.

## View from your Window

What do you see from your window? Another house across the street? A wheat field? A pine forest? A placidly flowing river, or an endlessly crashing sea? Your view, of course, depends on where you live.

The kind of church you go to—whether it is Gothic in style or white frame, a pale pink stucco built in a Spanish manner, or a domed cathedral, depends, too, upon where you live.

But whatever the size... whatever the shape... the Church is the Church. God's House assumes many forms on earth, but in all of them you will find His teachings, His word, His spirit.

Go to your church next Sunday.

**THE CHURCH FOR ALL**  
ALL FOR THE CHURCH  
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**MONTGOMERY WARD IS LOOKING FOR SALES AGENTS**

How would you like to start your own business... and open the doors with a trusted 95-year reputation the very first day? Now you can! Here's a unique opportunity for you to become your own boss in a bold new business... a business that offers virtually risk free income, from a remarkably small capital investment, of only \$3500 in operating capital.

Montgomery Ward is looking for Sales Agents. If you're a stable, ambitious man... or a husband-and-wife team, with an urge to break out on your own in a catalog store, we're looking for you.

We've developed a unique program requiring a very small initial investment in which the agent immediately supplies the location-leased or owned - plus a portion of the expenses and his ability and strong desire to sell!

We make available everything from store fixtures and display material to free management training and plenty of encouragement. We want you to succeed. You'll retain a favorable percentage of the profits, so the size of your earnings is determined by your ability to run an efficient business.

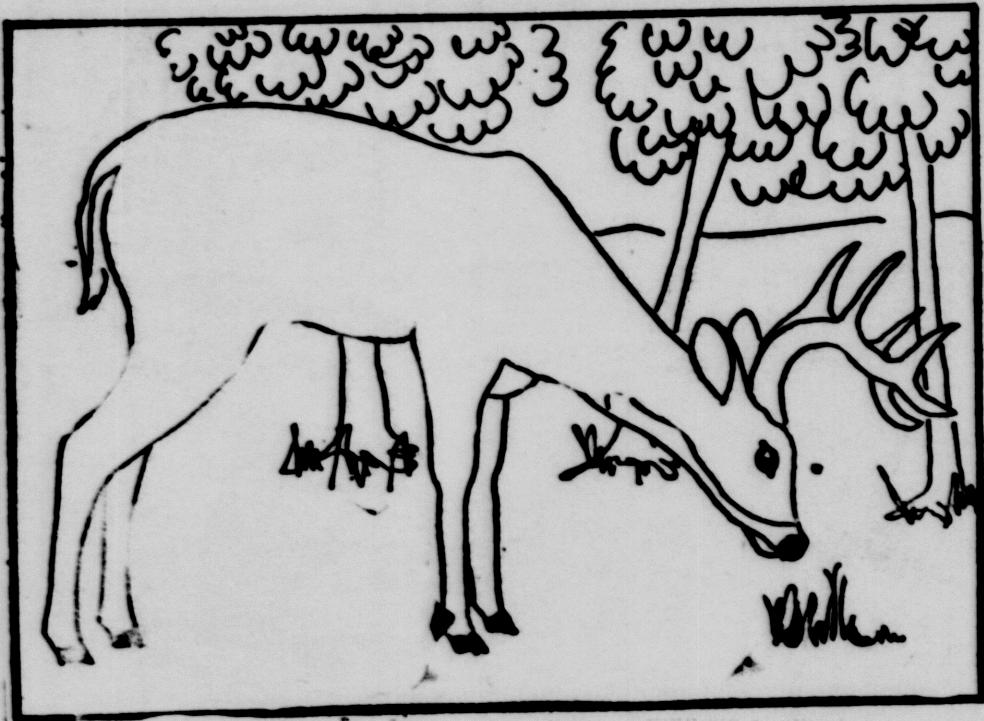

If you're interested, we're interested in you! Write today to arrange a personal interview. Please send personal qualifications, and recent photo.

**CITATION BY PUBLICATION**  
 THE STATE OF TEXAS

TO: T. J. Sutherland (sometimes spelled Sutherland) if living, and if dead, the unknown heirs of T. J. Sutherland (sometimes spelled Sutherland), and Mrs. R. M. Sutherland (sometimes spelled Sutherland), if living, and if dead, the unknown heirs of Mrs. R. M. Sutherland (sometimes spelled Sutherland), hereinafter called Defendants. Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Milam County at the Courthouse thereof, in Cameron, Texas, by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 19th day of February A.D. 1968, to Plaintiff's Petition filed in said court, on the 3rd day of January A.D. 1968, in this cause, numbered 15,874 on the docket of said court and styled Carl G. McKnight, et al, Plaintiffs, vs. T. J. Sutherland, et al, Defendants.

A brief statement of the nature of this suit is as follows, to-wit: suit for title to and possession of 36.29 acres of land out of the John Dunlap Survey in Milam County, Texas, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Cameron, Texas, this 3rd day of January A.D. 1968.

Attest: Grady Allen Clerk,  
 District Court, Cameron,  
 Milam County, Texas. 45-tfc

## Catfish Farming Continues Rapid Growth In State

**COLLEGE STATION**  
 Production of catfish for commercial purposes continued rapid growth in 1967, according to W. G. Klusmann, Extension specialist in wildlife conservation at Texas A&M University.

From 300 acres in production in 1960, catfish farming grew to an estimated 3,000 acres in 1967. Klusmann says about 20-25 million pounds of catfish were harvested in 1966 compared to a few thousand in 1963.

"By 1970, the number of farm-raised catfish will likely increase from 100 to 200 percent," he said. For many people in Texas fish

farming is a profitable sideline, but for many more it is a full-time business. A few are losing money fish-farming but this is mainly because of merchandising and marketing problems, Klusmann points out.

At an initial stocking rate of 1,500 yearling catfish, the farmer can expect an average yield of 1,000 pounds per acre, per year.

With prevailing market prices between 35 and 75 cents a pound and the costs of raising the fish, including feed, from 25 to 30 cents a pound, Klusmann said the profit may vary between \$90 and \$300 a year per acre.

This wide variation in expected profits is probably the result of

the unorganized nature of this new industry and the variations in management and marketing abilities of the individual producers, Klusmann concludes.
